

Medium Transmission

- If you are immunocompromised or high risk for severe disease
 - Wear a mask or respirator indoors in public
 - Have a plan for rapid testing if needed (e.g., having home tests or access to testing)
 - Talk to your healthcare provider about whether you are a candidate for treatments like oral antivirals, PrEP, and monoclonal antibodies
- If you have household or social contact with someone at high risk for severe disease consider wearing a mask when indoors with them
- Stay up to date with COVID-19 vaccines and boosters
- Maintain improved ventilation throughout indoor spaces when possible
- Follow CDC recommendations for isolation and after exposures, including getting tested if you are exposed to COVID-19 or have symptoms of COVID-19

N.B. At all levels, people can wear a mask based on personal preference, informed by personal level of risk. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask.
